Uploading metadata to DOAJ

There are now three ways to get your metadata in to DOAJ. **You must log in to your account** before uploading metadata. The Publishers' Area now includes a 'Your Journals' tab which has a list of all your journals currently included in DOAJ and that are associated with your account. You may only upload metadata to those journals. If you upload metadata which is incorrect (for example containing an ISSN that is not in the journal list) the upload will be rejected. (Note that you should ensure that your journal record is up-to-date in DOAJ before uploading metadata to us. If you need to update a journal record, please [contact us](#).)

The ways to get your metadata into DOAJ are:

- **Manually enter the metadata article by article.** You are able to upload metadata under the 'Enter Article Metadata' tab. Metadata uploaded this way will be checked for errors before being added to the database.
- **Upload article XML.** You are able to upload XML files directly from your computer OR you can enter the URL where the DOAJ system can retrieve it from your website.
